**Notes:**

1. This data is preliminary and may be subject to change.
2. Due to how data relating to search warrants and charges from search warrants are recorded, the figures should be treated as an estimate only.
3. Search warrants refer to searches conducted at an address.
4. Search warrants executed refer to warrants with a start time between 1 January 2019 and 31 December 2019.
5. Data relating to the number of persons charged refer to charges linked either to the same occurrence as the search warrant or occurrences related as "linked event" or "same event". These charges may occur outside of the reporting period and may/may not necessarily relate to child exploitation material or drugs offences. For example, during a search for child exploitation material, drugs were located on multiple individuals.
6. Figures for persons charged refer to a unique person count. A person with multiple charges are counted once.
7. Warrants relating to child exploitation material are those where the suspected offences contain "CEM" or "child exploit", or where the search purpose is "Child protection".
8. Data relating to child exploitation material may include warrants relating to indecent treatment of children as it is not possible to easily identify warrants for child exploitation material.
9. Warrants relating to drugs are those where the suspected offences contain "drug", or where the search purpose is "Drugs".
